

## INDUSTRIAL SYSTEMS

# THERMAL, ACOUSTIC AND FIRE INSULATION SERVICES

### SPECIALISTS IN THE SUPPLY AND INSTALLATION OF THERMAL, ACOUSTIC AND FIRE INSULATION FOR INDUSTRIAL APPLICATION

CBG Systems has specialised for more than 40 years in the provision of insulation services for the industrial and marine industry. CBG Systems high quality services leverages off the company's relationships with major insulation manufacturers, surveyors, prime contractors and project owners, allowing it to deliver reliable and cost efficient solutions.

CBG Systems industrial insulation services include:

- ▶ **Technical specification of insulation and cladding systems**  
Insulation and cladding systems are tailor designed to suit customer needs, taking into consideration insulation performance, budget, space environment and aesthetics.
- ▶ **Installation and commissioning of insulation and cladding systems**  
Expert insulation and cladding specialists are backed up by a quality management system assuring safety and best practice installation techniques. Systems are commissioned and warranted.
- ▶ **Supply and installation of smoke and fire boundaries**  
Passive fire and smoke protection for all applications according to industry, government and regulatory body specifications, ensuring equipment, plant and lives are protected.
- ▶ **Installation of specialised Standing Seam System**  
Standing Seam System technology allows for cost effective and rapid manufacture and installation of complete tank insulation and cladding system, with minimal disruption to project schedule.
- ▶ **Plant shut downs and maintenance**  
Plant shut downs, include removal of old insulation, cladding and re-installation of new insulation and post-maintenance.
- ▶ **New build manufacturing facilities**  
Services for new build plant and facilities are supplied to incorporate maximum integration into the overall project and allow flexibility to meet changing project demands.
- ▶ **Through-life support services**  
Through-life support service contracts allow for a fixed price maintenance package, to save money by servicing insulation and cladding in time before degrading occurs.

## WORLD LEADERS IN DEVELOPMENT, SUPPLY AND INSTALLATION OF INSULATION

**CBS Systems industrial insulation services include:**

- Technical specification of insulation products
- Through-life support services
- Installation and commissioning of insulation solution
- Supply and installation of auxiliary smoke and fire boundaries
- Insulation for piping, ducting and tanks
- Cladding
- Standing Seam System
- Plant shut downs and maintenance
- New build manufacturing facilities

**CBG Systems works with all types of insulation materials including:**

- Fibreglass
- Ceramic fibre
- Polyester
- Polyisocyanurate (PIR)
- Polyamide board
- Intumescent

CBG Systems was established in 1978 as a provider of a broad range of insulation systems. Today CBG Systems is recognised as the leading provider of panelised lightweight passive (or structural) fire protection systems (SFP) and contractor for the installation of energy control and insulation systems for marine and industrial environments.

CBG Systems deliver its insulation services through insulation and cladding specialists who can be deployed in an efficient and economic manner. CBG Systems specialists are backed up by expert project managers and supervisors to guarantee high quality service delivery.

CBG Systems operates an ISO 9001:2015 Quality Management System and has extensive experience installing IMO approved SFP systems in navy and industrial projects across the world.
